

FIRST SUNDAY STYROFOAM RECYCLING EVENT

When: First Sunday of each month, 12:00 – 4:00 p.m.

New Location! Sheffield Building, 18850 103rd Ave SW

The list of accepted materials has been expanded, including some plastics not accepted at the transfer station (see reverse)

All materials must be clean and dry. Please remove all tape and labels. Box or bag similar type materials together for faster handling.

Note that Reusable Packing Materials can be dropped off and picked up for reuse also!

COVID-19 Protocol:

Wear a mask and stay in your vehicle. The FSSR crew will unload the car.

Why Recycle Styrofoam?

- It takes up a lot of room in the landfill. Styrofoam is 98% air!
- It is a highly recyclable material.
- If allowed in waters and land, it can remain forever and hurt wildlife.
- It saves you the hassle of chasing around those pesky little peanuts and flakes of Styrofoam.
- It's FREE!

We take the Styrofoam to StyroRecycle in Kent, WA where it is turned into useful products like switch and outlet plates, picture frames and crown moldings.

Volunteers Needed

We can use your help! The work is light and easy. If you want to help out for 2-4 hours on the first Sunday of the month, contact us at:

info@zerowastevashon.org.
