

Reusable Cup Project

We are excited to provide nonprofits and Vashon-Maury Chamber of Commerce members an alternative to disposable cups for events. The **Reusable Cup Project** is a stash of 14oz and 8oz stainless steel cups. These cups are owned by the Vashon-Maury Chamber of Commerce and stored at the Chamber. The project was made possible by Zero Waste Vashon.

The cups are lent out on a first reserved, first served basis. However, since there are 2000 14oz cups and 1000 8oz cups we don't anticipate running short should there be multiple events on the same date.

We prefer for people to pick up the cups on the Thursday before a weekend event and return all items (clean and DRY) on the following Tuesday. Other arrangements can be made if needed.

We ask that you check out entire crates even if it results in checking out more cups than you need. This ensures easy tracking since each crate of 150 cups is numbered. In the event of lost cups there is a small replacement fee. An instruction sheet comes with the cups when you check them out.

Please reserve by emailing me and ccing Vashon Chamber ED Nicole Banducci.

Thanks for reducing waste!
